

# A JAIL BREAK AT DOUGLAS IN YAQUI RIVER VALLEY

FLOYD G. UTMAN, WHO SHOT WOMAN, MAKES HIS ESCAPE.

Floyd G. Utmann, who shot a Mexican girl in the arm yesterday morning, on Sixth street, and was arraigned and held to bail in Judge McDonald's court in the sum of \$500, yesterday afternoon, in default of which he was confined in the Douglas jail to await the action of the grand jury, did not remain long in the bastille. About 10 o'clock last evening he took a broom stick and with this powerful weapon punched a hole in the wall of the jail building large enough to permit him to crawl through. He made a hasty exit through the hole, disappeared in the darkness and nothing has been seen of him since that time. It was about an hour later when Constable Shropshire, who was doing police duty, heard of his prisoner's escape. He and the other officials of the town and county put in all the remainder of the night looking for the escaped prisoner, but "nary" a track nor trace of him could be found. Every saloon and joint and hanging out place in Douglas was visited but no one had seen Utmann. He had completely vanished in the darkness of the night and is apparently gone for good.

It is said that Utmann is wanted in California for a quite serious offense and that upon his incarceration in that state he broke jail and took French leave the same as he has done here.

There were several other prisoners in jail at the time Utmann broke out but none of them desired to get away as they are confined for small offenses and they will all be out in a short time anyway.

This makes the second jail breaking in Douglas in a short time, but all of this will be ended when the new steel lining is put on and the jail repairs now in contemplation finished.

**Caught in Mexico.**  
After a fruitless search all morning the officers were notified about noon that a man answering the description of Utmann was seen in Agua Prieta, across the Mexican line. The officers immediately took up the new clue and were not long in locating Mr. Utmann and placing him in the Mexican jail, which is a jug handled hole in the ground. Constable Shropshire has sent over manacles to place on the prisoner, but even with manacles on his limbs it is not certain that the primitive jail in the Mexican village will hold so shrewd a rascal and desperate character as Mr. Utmann.

Requisition papers will be served on the governor of Sonora at once asking the return of Floyd G. Utmann a fugitive of justice.

**Superintendent of Big Stock Ranch**—H. Reynolds is at the International Hotel, registering from the Republic of Mexico. He is the superintendent of one of the largest stock ranches in Sonora. His ranch lays nearly one hundred miles southeast of Douglas. This is his nearest point at which to buy supplies. He was here on that business yesterday and this morning with a pack train of ten burros and mules left with a goodly supply of provisions for the ranch. Mr. Reynolds says that within the next thirty days he will make a shipment of 1000 head of fine fat cattle as have ever gone out of Mexico.

**Off for Mochtezuma**—The outlook is now good for a large party to go from Douglas to attend the Fourth of July celebration at Mochtezuma, Sonora, Mexico. Those who have already announced that they will take this opportunity to visit their friends in the Sonora mineral country are Attorney Parsons, who will be the orator of the day; J. L. Brown, manager of the Roy & Titcomb machinery house; W. C. Winnegar of the First National Bank; G. L. Andrews, the well known broker, and E. A. Von Arnim, the real estate and insurance agent. Others who have been talking about making the trip are yet undecided. Those who go will be well received and cared for while they are at Mochtezuma.

**Typhoid**—Several cases of typhoid are reported in the city. The twelve-year-old boy of W. E. Golding has been down for several days. Miss Myrtle Munson was reported yesterday to be getting along as well as could be expected. Her temperature has been reduced almost to the normal, but as yet she has not regained an appetite.

It is the best medicine ever made for chills and fever." 50c at RINEHART'S PHARMACY.

**CROPS REPORTED BEST EVER HAD—MACHINERY NEEDED FOR HARVEST.**

Mr. A. L. Hench, who owns a farm on the Yaqui river, some thirty miles from Fronteras, was in Douglas a few hours yesterday afternoon, returning to Fronteras this morning on the Nacozari train. Mr. Hench is engaged extensively in wheat raising on the Yaqui river and is also engaged in wheat harvesting with machinery for hire. It was to get some necessary repairs for his machinery that he came to Douglas. Mr. Hench says that the wheat crop of the Yaqui river country was never better than it is this year, easily harvesting twenty-five bushels to the acre. He gets \$2.50 per acre for cutting the wheat and leaving it in windrows and has more to cut than he can handle. All of this wheat crop is threshed out by horses tramping over it and there is a lamentable lack of machinery in that country. A good threshing machine with horse power would make fine money as they would get ten bushels out of every hundred for the threshing, and wheat on the Yaqui is never worth less than four cents per pound, or \$2.40 per bushel. Mr. Hench is of the opinion that big money can be made in agriculture all along the Yaqui for many years to come and would like to see some active, up-to-date Americans come into that part of Sonora and begin farming.

## SULPHUR SPRINGS VALLEY

**PROSPEROUS RANCHING IS GETTING A GOOD START ALL THE WAY TO GLEESON.**

Judge A. D. Wallace returned yesterday evening from a trip up the Sulphur Spring valley, going as far as Gleeson to visit the ranchers in the valley and call their attention to some matters pertaining to the poultry business, which will prove to their benefit.

Mr. Wallace said that the Sulphur Spring valley has no equal in the west, and he has been all over that portion of it included in New Mexico and Arizona. The soil, he declares, is phenomenal in its productive strength, and he believes it will only be a few years until prosperous ranches will be continuous all the way from Douglas to Gleeson.

Mr. Wallace found Mr. Vandeveter, eighteen miles above Douglas, engaged in an extensive agricultural enterprise, which promised to be a success. He owns 1,000 acres of land, which is intended to be planted in alfalfa. Mr. Vandeveter is now engaged in laying the necessary pipe to bring water a distance of ten miles from Whitewater creek in the Chiricahua mountains. It is believed that an abundance of water can be brought to the land at a cost which will enable the growth of alfalfa. Mr. Vandeveter is no stranger to the west and is going about his enterprise with every confidence.

Across the valley from Mr. Vandeveter, Mr. Baily, formerly interested in the water system in Bisbee, is installing a pumping plant on his ranch which will have a capacity of 2,000 gallons of water per minute. Besides supplying water for his own ranch, Mr. Baily will supply some of his neighbors, who are already preparing to lay pipe connection with Mr. Baily's pumping plant.

Ten miles above Douglas, at the old Copper Queen ranch, Mr. Ryan, who is in charge, has a beautiful garden of two acres, from which he is selling a large amount of vegetables at a handsome profit over production. At this point Mr. Wallace is of the opinion that a postoffice and a small store should be provided and in this connection stated that there should be a mail route down the Sulphur Spring valley from Pearce to Douglas.

## Dangers of Defective Plumbing

Defective plumbing permits the entrance into the house of sewer gas bearing germs of contagious diseases to which the human system readily succumbs.

Sewer gas is not necessarily generated in the sewer, but is frequently created in the plumbing system within the home and enters the apartments through defective fixtures.

If in doubt, consult us regarding the piping and replacing defective fixtures with "STANDARD" Porcelain Enameled Ware—acknowledged as the best sanitary equipment.
